

Dear Parent / Carer,

On Friday 5th February, we are having a wheeled toys day. This is linked to our toys and forces work in science.

The children can bring a bike, scooter or skates to school. They can also bring remote controlled cars, outside cars etc. Anything that moves on wheels and can be played with outside.

If children bring a bike, scooter or skates etc, they must have a safety helmet or they will not be able to use their toy.

All toys will be kept safe in school during the day.

It will be a fun day!

Thank you.

Miss Cox and Miss Duong ☺
